DIY IDEAS FOR A MODERN PERSONALIZED WEDDING

TUESDAY, JANUARY, 17, 2012 AT 10:45 AM // COMMENTS: 16

With the lure of DIY playing an ever-present role in the wedding world, Amanda Auer of *In The Now Weddings* and photographer *Jasmine Star* wanted to rethink DIY projects in a modern way. So, in addition to creating a styled shoot, they have also provided lots of great inspiration for easy projects couples can do on their own to personalize their wedding day. I love that they focused on the bar area too – an important element for most couples, but probably one of the last things you think about, so I hope this inspires couples! The location is the *Vibiana* in Los Angeles – an old Catholic church. Thanks to Amanda for all the DIY element write ups!
