

## MODERN + CHIC VIBIANA WEDDING

Mark Brooke Photography was there to capture a stunning affair that was exquisitely styled by Modern LA Weddings! Now we all know that one of my favorite decor details is a P.O.C. aka pop of color! This wedding's prismatic splashes of merlot, garnet, and fuchsia add the ultimate eye-catching details to this elegant evening! Lilla Bello created magical cascading greenery and blooms that hung above the bride and groom as they said their I do's! This design was carried through the ceremony with eclectic centerpieces that created whimsical floral combinations and brilliant berry hues! The bride called on the couture gods when she chose this absolutely gorgeous fitted gown with different layers of beading, lace, and applied detail! I love how she too found her P.O.C. and matched her effortlessly ivory gown with a majestic ruby lip!
