Certain design concepts have the ability to transport us to another time and place – they evoke in us a sense of wonder that allows us to leave our current setting and take on an entirely new identity. When Alexandra Rembac of **Sterling Engagements** began to go about creating a concept for a wedding tablescape for **Luxe Linen's** 2016 launch party, she was immediately struck by one of the line's newest additions. "Our inspiration for the table began with our linen, Circle Dance," says Alexandra. "I loved the pattern and the metal sheen layered on it. The circles and the design within them, to me, felt very Greek or Moroccan, and immediately whisked me off to the Mediterranean Coast." With such a clean, crisp space to work with, Alexandra decided to stretch her creativity to create an artful design fit for an offbeat couple. After selecting a large pair of painted angel wings to hang over the table, Alexandra and her team came up with the title "Dancing Angels along the Mediterranean" for their concept.
